Hi Ali,

Good Morning,

Relating to the below Firewall Setup I recently received this from our client, to give you a brief this came after I stated that in Oman static IPs are not available.

Thank for your support and noted.

We understand that local ISPs in Duqm are currently unable to provide a static IP address, which is creating a limitation for the system access requirements. In our case, the Duqm team has been successfully accessing the same system by utilizing our company-approved VPN solution, which allows secure and stable connectivity without the need for a fixed IP.

For your reference, below details of our GlobalProtect VPN setup, which we are currently using across our operations. This solution has proven to be reliable for both office-based and remote access scenarios.

GlobalProtect

Connections
Troubleshooting
Notifications
Host Information Profile
About

fadi.alsulaimi@sumitomocorp.p....
Sign Out

Status

Connected

Login Lifetime
29 day(s) remaining

United Arab Emirates
Manually Selected Gateway

Manage Portals

GlobalProtect-Bkup.sumitomocorp.com
GlobalProtect-Guest.sumitomocorp.com
SumitomoCorp.gpcloudservice.com

Tunnel Statistics

Assigned IP Address(es)	Session Uptime	Protocol
IPv4 10.250.15.94	00:00:02	IPSec
IPv6		
Gateway IP Address	Bytes In	Bytes Out
130.41.21.206	12503	3963
Gateway Location	Packets In	Packets Out
	32	43

In light of this, could you please explore the possibility of implementing a similar VPN solution for the Duqm PCs and handheld devices. We believe this approach could serve as a practical workaround to the static IP constraint and help ensure continuity of the project activities, especially with the upcoming UAT phase.

Please let us know your thoughts on this approach or if you require any additional information or support from our side to facilitate the evaluation.

Can we please mimic this setup on the mentioned Sonicwall FW and reach the same solution ?

Basically we will need your assistance with creating a VPN solution for all of our Duqm devices (PCs and Handheld)

Thanks in advance.

Kind Regards,

Daniel Portelli | IT INFRASTRUCTURE & SUPPORT LEAD

Hi Ali,

Good Morning,

Thanks for the below quote, I am awaiting a reply from their ISP for a static IP once I have confirmation that it has been done, I will get back to you accordingly.

Kind Regards,

Subject: RE: Firewall Setup for Oman

Hi Ali,

Good Morning,

Thanks for your prompt reply.

If we can use any of the below brand I would appreciate,

SonicWall (preferred choice)

Fortigate

Sophos

For the time being for Duqm please. However think of the setup as a scalable one just in case we need to add Sohar at a later stage.

Kind Regards,

Hi Daniel,

Sure, I can assist with setting up the firewall for your Oman base.

Could you please let me know if you have any preferred brands, or would you like us to recommend suitable options? Also, Oman has two locations (Sohar and Duqm).

Please confirm if the firewall setup is required for both sites.

Best Regards

Ali

Subject: Firewall Setup for Oman

Hi Ali,

Good afternoon,

We are interested in setting up a FW at the Oman base, can you help us with this please?

Looking forward to your reply.
